ACKNOWLEDGEMENT

The Practical Work would not have been possible without the kind support, the trenchant critiques, the probing question & the remarkable patience of my guide

Ms. Shobha Sahu With her enthusiasm, her inspiration & her great effort to explain things clearly & simply, she helped to make simulation fun for me. Throughout my practical period she provided encouragement, sound advice, good teaching, good company & lots of good ideas.

I wish to sincerely thank my subject teacher **Ms. Vertika Shrivastava** for being my guide & mentor during the period my assignments in MAIC. The support & confidence she bestowed upon me was invaluable in the steering the assignments to completion through all its phases. I really appreciate that she provided me the best of facilities. It was quite hard to keep up with her unbridled enthusiasm in tackling the problems & exploring all the solution, however, I molded my mind as a researcher to think from multiple prospective without the undue restraint.

I would like to thank to **Ms. Vertika Shrivastava** H.O.D. of Computer Application Department, MAIC for the support & providing me an amiable environment in the department during my course of practical work. It is the great pride to acknowledge my college Principal **Dr. M.S. Mishra**, our college colleagues for their selfless encouragement & moral boosting that has made this long journey seem so momentary.

I wish to thank my entire extended family for providing a loving environment for me. I am forever thankful to my parents, whose foresight & values paved the way for a privileged education.

They gently offered counsel & unconditional support at each turn of road. I sincerely thank them for their unwavering trust & whole hearted support in all my endeavors. They taught me by example that no sacrifice is too small for achieving excellences in education. Words are inadequate to express my gratitude to them & all of my family who share in this accomplishment.
